4 things to think about when putting together an outfit

- ☒ What am I doing today??
- ☒ What's the weather today?
- ☒ Start with one piece, put it on, and build from there.
- ☒ Don't be afraid to try several outfit variations before you land on the right thing!

The secret to wearing basics well in the summertime

During the warmer months, we're all wearing less clothes and definitely not reaching for layers. But a pair of pants and a top can feel boring!

The key to combating this is adding ACCESSORIES!

Try adding a stack of bracelets, a fun statement earring, a wide brim hat or baseball hat in a fun color, a few layered necklaces, or a pair of fun shoes.

Your outfits can be basic and still not be boring!
