### 4 ways to make your fall outfits feel special

- ☒ This is the season for LAYERS! Wear blazers, jackets, sweaters, or scarves.
- ☒ Play with textures and prints - waffle weave, plaids, wool or cashmere, cable knits!
- ☒ Don't forget accessories. Add belts, earrings, bracelets, hats...they're all fun ways to add interest to your basics.
- ☒ It's easy to forget about color during the fall, when grays and browns are our basics. But a pop of color makes any outfit feel special!

### Why you should be swapping your closet in a new season

*At the beginning of fall, and the beginning of spring, I do a closet swap.*

*All my off-season clothes get taken out and stored out of the closet, because it makes it so much easier to get dressed when everything currently in your closet is wearable for the current season.*
